

PLEASE JOIN US FOR AN UPCOMING

Hyde Park Day School Bellick Family Community Education Program

Dr. Devin Kearns is an associate professor of Special Education in the Department of Educational Psychology in the Neag School of Education at the University of Connecticut and a research scientist for Haskins Laboratories at Yale University.

Seeing Words & Imagining the World: Understanding Word Recognition & Reading Comprehension

Wednesday, March 6, 2024
6:00 p.m.

Northeastern Illinois University
Student Union, Room SU214
5500 N. St. Louis, Chicago

Parking available in the F Lot. Proceed through the main campus entrance to enter the Student Union. ([Map](#))

Reading starts when the reader looks at the printed words. What happens next? The answer is surprisingly controversial—and it has many implications for how teachers should design reading instruction. Fortunately, scientific inquiry has produced many important ideas about how the system works—and these ideas can help teachers design better reading lessons. In this session, Dr. Kearns describes the science of the reading system and how words and meanings are connected. He explains how these ideas should influence instruction and also suggest ways parents can help their children with reading at home.

Please RSVP by February 28th by registering [here](#).

This program is free and open to the public; feel free to share this invitation with friends and colleagues. For questions, call 847-446-6095.
